# OS Integral Color

## Integral Color for Cementitious Overlays

### Product Description

Ameripolish® OS Integral Color is a concentrated liquid dispersion of mineral oxide pigment particles formulated to color concrete and is available in a broad range of hues. OS Integral Color meets ASTM C979, Standard Specification for Pigments for Integrally Colored Concrete and is approved by the manufacturer of Rapid Set® TRU™, a leading cementitious self-leveling polishable overlay.

### Features

- Does not alter mix properties
- Maintains original strength
- Colorfast in outdoor settings
- Premeasured units equal standard dose for one 50 pound bag of cement base overlayment systems.
- Meets ASTM-C979 standard

### Uses

- Coloring concrete; especially designed for diamond-polished concrete
- For optimum performance, use Ameripolish® OS Integral Color with Ameripolish® 3D HS Hybrid Silicate Densifier, Ameripolish® 3D SP Stain Protect, and/or Ameripolish® SR<sup>2</sup> Penetrating Sealer together to lock in colors for longer lasting protection

### Dilution & Coverage

OS Integral Color comes ready to use, and is premeasured in units equal standard dose for one 50 pound bag of cement base overlayment systems.

### Application

For applications instructions, please refer to the overlayment manufacturer as each system may have different instructions for the desired outcome.

### Cleanup

OS Integral color cleans up easily with soap and water.

### Product Specification

<b>Application:</b>	Mix with Overlay
<b>Appearance:</b>	Various colors
<b>VOC:</b>	Compliant (4.9g/l)
<b>Shelf life:</b>	Indefinite
